AUSTRIA-TURKS TO QUIT

PLAN TO DEMOBILIZE ARMIES

ENEMY SUPPLY RAILROAD IS CUT BY THE ALLIES

LONDON, Oct. 26.—A new allied attack was begun on the Belgian front on Friday and excellent progress was made. The blow fell between the Lys river and the Scheldt, and the British war office early today announced important captures, despite desperate resistance.

The text of the official report follows:

"British and French troops attacked between the Lys river and the Escaut (Scheldt) yesterday morning. The French captured Chateau Soulte, and despite desperate resistance, reached Blawpoort farm, on the Waereghem-Anseghem road.

"The British captured Engeghem and Ooteghem and are advancing on the Scheldt river in that region."

IMPORTANT NOTICE!

Acting under the order of the Health Department of the City of Richmond, the chief of police of this city has been instructed to arrest all persons appearing on the streets of this city or any public place, or houses of business in Richmond who are not wearing gauze masks over their nose and face, from and after Friday morning, October 25th, 1918.

By Order of the Richmond Department of Health,

CHARLES R. BLAKE,
Health Commissioner.

Richmond, California, October 24th, 1918. 10-25-1t

U.. S AVIATORS DOWN 253 AIR CRAFT SINCE SEPT. 25

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 25.—Tomorrow (Saturday) marks the completion of a month of fighting since the Americans started their drive on the front between the Argonne forest and the Meuse river. It was the first American major operation in the war since the combats on the St. Mihiel salient and previously were of a local nature.

The present engagement, which history will probably call the battle of Argonne, has seen the Americans fire 2,500,000 rounds of artillery ammunition and often as high as 150,000 rounds in a day.

They are using guns of all caliber (number deleted by censor), exclusive of the cannon captured from the Germans and turned back upon the foe.

Four hundred and seventy-five square kilometers of ground have been taken from the enemy and more than 20,000 prisoners, including many officers.

A vast quantity of enemy ammunition has been captured. The booty includes much war material of all kinds and many small arms and machine guns in countless numbers. Also it includes much railroad equipment and locomotives as well as freight and passenger cars.

During the month of fighting 230 German airplanes and twenty-three balloons were shot down.

RECOVERING FROM ILLNESS.

Miss Mabel Macdonald who has been suffering from an attack of appendicitis, is reported as being a great deal better.

MASK SLACKERS CAUSE EXCESS OF BUSINESS IN COURT

Police Court Judge C. A. Odell is a busy man these days. Between last night and this morning he had about one hundred cases before him of people charged with not wearing masks. Most of them who informed the court that they did not know of the new regulation but were perfectly willing to obey it were discharged but a number of the obstreperous ones were forced to pay fines.

K. C. Shurick, of 1101 Alice street, Oakland, when accosted by an officer on a street car this morning refused to get off and get a mask, and informed the police that they would have to drag him off, which they promptly did, and swore to a complaint against him charging him with resisting an officer. He pleaded not guilty and his bail was fixed at $500.00 in default of which he was taken to the city prison.

Other mask cases before Judge Odell were as follows:

L. Anderson, fined $10.00.
Berg Rodin, fined $5.00.
Michael Kelly, fined $10.00.
James Leonard, fined $5.00.
Stanley Bergeson, fined $5.00.
M. Radich, donated $2.50.

PINOLE MINISTER HERE.

Rev. Hugh Baker, Methodist minister at Pinole, was in town yesterday, the guest of Rev. D. W. Chaffee at the latter's home on Twenty-second street.

TURN THE CLOCK HANDS BACK TONIGHT

Don't forget to turn the hand of your clock back an hour before going to bed this evening. Of course you can sit up until 2 o'clock tomorrow morning and turn them back at that time, which is the exact moment when the six months daylight saving edict expires, but you may get more sleep if you attend to the duty this evening.

The hands on the great official government "regulator" in Washington, more intricate and complicated in mechanism than anything of the time-keeping line in the Western hemisphere, will be turned back just sixty minutes to the dot, by the official time keeper. The new time will be flashed by wireless to every point of the compass.

Most people will take little note of the change, but all railroad officials and employees and others engaged in various diverse occupations will promptly readjust their watches to conform to the new time to the second. Otherwise disastrous wrecks and trouble in general will ensue.

Director General McAdoo has ordered all railway trains to stop where they are at 2 o'clock Sunday morning for one hour.

INFLUENZA VICTIMS IN PAST 24 HOURS

CARROLL, Mrs. Sarah Elizabeth, a native of Georgia, aged 35 years, resided at 2231 Center street, wife of Oliver Bruce Carroll, and mother of five small children.

CLARK, Mabel, 1819 Barrett avenue, aged 28 years, died in a local hospital last night. She is survived by a sister who is very ill in a local hospital and an aunt in Pasadena.

MONTE, Louis, of 1902 Nevin avenue, aged 29 years, sheet metal worker at the Standard Oil company, husband of Irene Monte.

PERDRIZAT, Ninette, of 221 Sixteenth street, daughter of Jules Perdrizat, aged 2 years six months. Father died yesterday.

MARIANO, G.—At the Mexican camp of the Santa Fe.

SABOA, Leonine—At the Mexican camp at the Southern Pacific at San Pablo, aged 17 years.

GERAGHTY, Louise — At 2215 Nevin avenue, a native of Virginia, aged 28 years, wife of Robert Geraghty.

SMITH, Jacob George—Resident of Hotel Richmond, a native of Ohio, aged 48 years.

DAUGHTER AND FATHER LAID AWAY IN ONE CASKET

Tragedies are happening every day in connection with the influenza epidemic that is now prevalent in this city and one of the saddest took place last evening.

Jules Perdrizat owner of the Helvetia apartments at 221 Sixteenth street died yesterday afternoon, and last evening his little two-year-old daughter, Ninette, also passed away.

The funeral is taking place this afternoon, both of the bodies are in the same casket, and the father is holding the little girl in his arms.

The interment was in Sunset View cemetery.

FUNERAL IN SAN JOSE.

The funeral of the late William J. Martin, pressman for a local paper in this city who died at the home of his wife's mother in Berkeley on Wednesday, will take place in San Jose tomorrow. His wife and two small children are reported to be very sick with the influenza.

INFLUENZA SITUATION IMPROVING, IS OPINION OF HEALTH AUTHORITIES

Indications are that the influenza and its consort, pneumonia, are subsiding in this city. Reports from the undertaking establishments this morning show eight deaths for the past twenty-four hours and but 100 new cases of the disease reported from the doctors and hospitals about the city. Dr. Blake thinks he sees a ray of light through a tiny rift of the dark cloud which has enveloped the city and that by this time next week we will be almost free of the epidemic.

Drastic measures to compel everybody to wear gauze masks is having its effect, says Doctor Blake and while some of the people rebelled at first over the order, they are all wearing the muzzle with fairly good grace. Seldom do you see a man or woman appearing on the streets without the mask and if you do see one it is not for very long, for a policeman or a Home Guard pounces on him or her and they are taken before Hizzoner Judge Odell. Yesterday and last night more than a hundred were thus arrested and taken before the judge who read them a short lecture on the necessity of abiding by the edicts of the health authorities and then told them to go and buy a mask. Generally they complied with his order.

Today, however, it is decidedly different. He is imposing fines in cases where people are found without masks and in lieu of paying the fine they are sent to jail.

The members of the Home Guard are doing a noble work in the city. They are here, there and everywhere, aiding the police in maintaining the orders of the Health authorities and assisting the Red Cross in hunting up cases in need of medical or hospital attendance. Captain Oscar Long has cut all red tape and is striving to do the greatest good to the greatest number in the shortest possible time. The officers and guards who are acting under the orders of Blake have the situation well in hand now and it is thought that from this time on a noticeable decrease in the death rate will be the result.

THEODORE IVERSEN ILL.

Theodore Iversen, of the Eighth street hardware store and the Iversen Phonograph company, is home and in bed, suffering with an attack of influenza. He got up too soon from an attack which struck him ten days ago, but was compelled to go home and to bed again yesterday.

His condition is said to be satisfactory.

TURKS ASK FOR PEACE ON BASIS OF SURRENDER.

EMPEROR KARL TO ABDICATE

LONDON, Oct. 26.—A rumor circulated in Vatican circles has it that Emperor Karl of Austria and his family are about to leave Vienna for a journey through Hungary, preliminary to the emperor's abdication, the correspondent of the Daily News said in a dispatch today.

LONDON, Oct. 26.—The Turkish minister to Switzerland has handed the British and French ministers to that country an offer of peace virtually amounting to surrender, according to a British dispatch to the Daily Mail.

LONDON, Oct. 26.—A practical agreement has been reached between the Hungarian people and the Hungarian army to cease fighting on November 1, no matter what Austria's and Germany's attitude may be toward President Wilson's last note.

Information to this effect was telegraphed late last night to the Amsterdam correspondent of the Daily Express.

"Preservation of Hungary's integrity," the correspondent says "is the only condition Hungary stipulates for a separate peace. Separate peace has been determined upon at all costs, even if a revolution is necessary to bring it about."

BASEL, Oct. 26.—Vienna newspapers are publishing articles relative to preparations for demobilizing the army. One newspaper says that two infantry regiments stationed at Karlowitz have revolted. Karlowitz is a village in Croatia-Slavonia Hungary.

ZURICH, Oct. 26. — Prince Frederick Lobkowitz and Baron Nadherny, who represent the strongest anti-German tendencies at Vienna, have left that city for Switzerland charged with a mission about which no details are given, according to the Neuste Journal of Vienna.

HEALTH OFFICE SAYS LOCAL FLU CONDITIONS ARE MUCH IMPROVED

In speaking with the Record-Herald today City Health Officer C. R. Blake stated that the influenza situation was getting much better since the public generally was being forced to wear masks.

"There are not near so many cases today as on previous days, and the death list is smaller," said Dr. Blake. "The business of the drug stores is a good index of the decline of the epidemic. They are not filling many new prescriptions, and their business is principally refilling old prescriptions.

"In order that every safeguard may be had, I would suggest that all the merchants of the city refuse to send any goods on approval or to exchange any goods during the period of the influenza.

"From the information that I have gathered from o" sources, masks will have to be worn for the next two weeks, but I believe by the end of the coming week we will have the disease completely under control."

OLD TIME NEWSPAPER MAN RICHMOND VISITOR

Leo H. Young, the first man employed as advertising manager of a Richmond paper, was in town today. Young worked on the Record, the first daily published in Richmond, away back in 1901. He is now employed in a San Francisco brokerage house.

MODERNIZING THE ANCIENTS.

This war has done much to modernize the old world and bring it to a comprehension of present day methods. New methods of constructing buildings which the people of the old world never heard, unless mayhap they have been residents of America, new modes of attack in warfare and of repelling attack.

Along the ancient walls of Pisa the American Red Cross is completing a suburb to shelter the Venetian refugees. The buildings are being constructed of a cement of a new kind not yet widely adopted. They comprise about ninety blocks and the material is brought from the Valley of Pompeii. It is composed of Vesuvian small stones, recognized as superior for their adhesive quality.

Transportation difficulties have delayed the Pisan builders, who are now going ahead rapidly. Of the ninety blocks, eighty will be uniform, each one divided into nine buildings, forming different small quarters. The others are destined for the school, the recreation building, the infirmary, the home of the director, the laundry and similar conveniences.

The city will occupy an area of eleven hectares, which were requisitioned by the government and placed at the disposal of the Red Cross. The streets are of macadam. In the center of all there is a large square, and between the buildings, which are wide apart, there is ground for raised gardens, which gives a picturesque appearance to the whole community.

The undertaking is due to the energy of Captain Mauro, a Red Cross officer, born in Italy, who has had his business in America. Another Italian, Signor Valentini, an engineer, directs the work.

The Huns and Austrians who are occupying Italian soil are going to get their's now. If those fellows are not all captured before they get back across the mountains it will be something remarkably strange. Winter is setting in over there, which is just the time when Italy likes to fight and they are setting about right this minute for a vigorous winter campaign in the Alps. History will probably repeat itself. Italy has been known for hundreds of years as the graveyard of Central European armies.

Political glad-hand grafters were never more numerous than at the present time. Each mail brings dozens of letters telling how extremely important some pet scheme of somebody's is to the people of the country, when in nine cases out of ten it is designed to give the writer a fat job at the expense of the taxpayers. Wastebaskets in every newspaper office in California are groaning with their burden.

The Huns are marching on Berlin, according to the best information that can be secured from foregn dispatches these days. They are about to invade Germany and will occupy many of the principal cities of that nation—until Foch and his hosts arrive. Where they will go from there, nobody knows.

Well, the gauze mask should have the effect of saving a lot of cash which has heretofore been spent for face lotions and powder for sister. There is not much use of powdering one's face unless it can be seen, is there?

HOME TIES FOR SOLDIERS.

Soldiers and sailors are no longer called on to give up their social life and home life just because they are in service. The surprising extent to which these ties are maintained for them is illustrated by some of the activities in the soldiers-sailors clubs opened by War Camp Community Service from one end of the country to the other. Port Townsend, Wash., has reported proudly that Miss Mary Nibbler of Eugene, Oregon, recently became the bride of Corporal Vernon Brown, of Spokane, at the club with all the dignity and conventional detail of a home wedding.

Mr. and Mrs. Williams, who are the host and hostess of the club, were assisted by the decorating committee of the club. The "mothers room" in which the ceremony was performed had been transformed into a veritable bower of beauty with pink roses, sweet peas and green. W. F. Gloecker, Y. M. C. A. Secretary officiated. Fifty guests were invited. The wedding cake, cut with the usual observances was garlanded with roses. The community took a genuine interest in the occasion very different from that of former times in which the uniformed man was looked on as but part of the landscape.

The Red Cross tells the people of the United States to get ready for another drive for funds in the Spring. We are ready now to give the Red Cross anything it may want in the way of money and other material assistance to carry on its noble work. The people of the United States are going to play the game good and strong until final peace has been concluded and the boys who are now over there are all brought home to their firesides and families.

The government needs one million pounds of nut shells and fruit stones daily for manufacturing gas-mask charcoal, and at present is unable to purchase one-third that amount. This, and the failure of the public to co-operate fully by saving and sending in this form of waste from the kitchen, have made it necessary for the chemical warfare headquarters in New York City to renew its appeal.

From the German point of view retreating when attacked by an overwhelming force is an excellent sauce for the Allied goose. But when the tables are turned, it is considered a very unsatisfactory sauce for the German gander.

Richmond is having a season of going without its morning's morning and seems to be getting along very well. Dr. Blake's edict that the saloons close during the epidemic has brought to the people here a proper realization of what the town will be like when the state and nation goes dry.

The government edict of work or fight, is being brought down to a practical way. Essential and non-essential occupations are designated by the draft boards all over the United States and it is easy to determine whether or not you are in the classification that permits you to remain a citizen in uniform or in plain clothes.

Our ideas of woman as an exclusively sewing and dishwashing being fade away when we see her as a farmer and as an auto mechanic.

The secret of military success appears to be simple enough. All that is necessary is to get the other fellow running and to keep him so.

Not One Chinese In Ten Thousand Has Constipation

except a few drug users, while about 90 per cent of the Americans suffer from this dread complaint. The FONG WAN HERB SPECIALIST gives the following explanation of this phenomenon: "When a Chinese is ill, he immediately consults a Herb Specialist and the cause is removed, but, when an American feels ill, the first thing he does is to take a PHYSIC. This may relieve him temporarily, but repeated doses of such drugs eventually paralyze the bowels. As the bowels then no longer move naturally, physic taking becomes a habit, the weakened bowels drag, and there is a heavy pressure of gas on the rectum. If the poor victim be a man, the physician will usually tell him that his trouble is piles; if a woman, that it is female trouble."

By drinking the Fong Wan harmless Chinese herbs, hundreds of Americans have not only been relieved of their stomach and bowel troubles, but have been made normal again. Their testimonials are on file.

TO ALL PATRIOTIC CITIZENS

The following appeal to patriotism is issued by the Power Administrator appointed by the Railroad Commission of the State of California:—

Conserve Electricity

Patriotism demands that you save electricity for war industries.

Northern and Central California have a SERIOUS power shortage because of lack of rain during the past winter and the increased use of electricity by war industries.

These War Industries Must Have Power

There is not enough power for everybody at the present rate of consumption. It is up to you to save. Turn off lights whenever possible and use lower power lamps.

This is one other thing you can do in the great struggle.

An Urgent Appeal To the Public

Please do not telephone---day or night---unless it is absolutely necessary. The present epidemic of Influenza has greatly reduced our operating forces and at the same time has caused a tremendous increase in the volume of local telephone calls.

Vitally important calls for Physicians, Hospitals, Nurses, the Government and War Industries cannot be properly handled during the present crisis unless the public co-operates by reducing the number of telephone calls.

Please advise all members of your family and your friends to the critical situation now facing the Company and the Public and urge them to reduce their use of the telephone.

PUBLIC SCHOOLS MAY OPEN WEEK FROM MONDAY

Professor W. T. Helms, superintendent of city schools, announces there will be no school next week, but it is hoped that the influenza will have subsided by the following week so that schools can be opened. So far there have been no fatalities among the teachers, though some of them have been seriously ill and there have been very few of the school children that have died. A large number of them have had the influenza, however.

Wearing of the gauze masks seems to be having a good effect today, for the number of cases reported are much less than during any day since the epidemic gained a foothold in the city.

GEORGE FLEET IS HELD TO ANSWER

George Fleet, charged with breaking into Shrader's second-hand store and stealing a number of cheap watches, also with breaking open bottles containing pennies for the Belgian babies, was held to answer to the superior court by Judge Odell.

Fleet has a number of cases against him from several of the East Bay cities and is considered a depraved character.

LIEUTENANT DeLAP OFFICERS' INSTRCTOR.

T. H. DeLap, former attorney in this city, but now with General Pershing's Expeditionary Forces in France, writes to friends in this city that he is training officers in a camp back of the lines after being in the battles of Soissons, St. Mihiel and survived the grippe.

DeLap is a first lieutenant of artillery and has shown a great aptitude for military work.

DR. BULLOCK BETTER.

Dr. Bullock, who has been suffering from an attack of flu, is back at his office again after several days spent in bed. His wife and small boy are reported better, also.

BODY OF POPULAR LOCAL GIRL BURIED

Mrs. Ruth Babcock, formerly Miss Ruth Causey of this city, died at her home in Taft, of influenza, and the body was brot to this city today. Friends paid their last respects at the Curry undertaking parlors this forenoon.

The deceased is survived by her husband, George T. Babcock, mother Mrs. J. R. Causey, and three sisters, Pearl Helena, China and Mrs. Eunice Engelke. The funeral was held at 10 o'clock.

UKIAH PEOPLE SUFFER FROM INFLUENZA

C. M. Concannon, traveling for the Zellerbach paper company is back from his regular monthly trip to Willets and Ukiah and the country intervening. He says Ukiah, a town of about fifteen hundred people has a death rate from the Spanish influenza of at least three a day. Willets is also suffering seriously from the plague, as is also Santa Rosa and the towns near by. In Willets two doctors passed away with the influ and there is but one doctor left there to take care of the people of that community.

He did not visit Lake county, but learned that a large number of cases are reported from that section and many deaths.

A Gas Attack

Amendment No. 21
(The Dental Measure)
proposes to add to the cost of dentistry. In these days of increased cost of living it is no time to put an additional burden on the working people. It is a gas attack, pure and simple, for the purpose of blinding the people to the vicious and misleading purposes of those who seek to profit by it.

Vote NO on Amendment No. 21

Joint Committee, California Dental Associations.

CAMOUFLAGE
—the ONLY weapon of the "ethical dentist"

Diplomat Talleyrand said words were made to **conceal** thought. he was a great diplomatist—in his day, which was more than a hundred years ago. Statesman Wilson shows how words can be made to **express** thought—so clearly that even he who runs may read and know. His is the method of today.

One is a modern, a hit-from-the-shoulder man. The other if of the past, always camouflaging the public, but never himself.

And so it is with the "ethical dentist" who must defend his "sacred" ground—one on which the undergrowth of traditon is so thick that the light of day never shines through. He is much like the man standing on the curb waiting for the procession that has already passed by. He is of the old school, using words to **conceal** thought.

And that is just what he is doing in his attempts to prevent the passage of the Dental Amendment which the public is to vote on November 5th. Here is a fair, clean, clear construction of the bill in brief and what it means, **particularly to the 80 per cent of the people who cannot afford "ethical dentists."**

THIS BILL MEANS WHAT IT SAYS — that and nothing more. Don't be deluded by the camouflage-artists of the century—the "ethical dentists."

Now let us look at the business bible of the "ethicals." Here is a quotation from their Code of Dental Ethics attached to the by-laws of the California State Dental Association, the holiest of holy trusts, organized June 29, 1870, incorporated June 29, 1881—according to the inscription on the cover.

Section 6 of this Code reads: "It is unprofessional to resort to public advertisements, cards, hand bills, posters or signs, calling attention to peculiar styles of work, lowness of prices, special mode of operation, or to claim superiority over other practitioners."

Why are the "ethicals" so eager to prohibit the use of advertising to dentists? Simply this: because advertising makes possible larger organization, and specialized service — the very kind of service the average individual "ethical dentist" can not deliver. Organization, thus insuring specialized service in every branch of dentistry — brought together under one roof—means, better dentistry at lower prices.

Today, organization means economy — economy to the organization and economy to the public served by the organization. Every organization capable of specialized economic service uses advertising legitimately to bring it in touch with its customers. To the dentist, patient is but another word for customer. Organized dental service must serve its patients in greater degree in order to sustain prestiage and reputation.

Is not it time to break through the camouflage, the self-assumption and the selfishness of the "ethical dentists" and realize the facts? Read this amendment according to the true meaning of its **words and intent, and,**

READ THIS!
It is Dentristy Amendment 21.

AN ACT to amend An Act approved May 21, 1915, by adding new sections thereto, to be numbered seventeen, eighteen, nineteen, twenty and twenty-one, respectively, as follows:

Present law not repealed—amended only.

Section Seventeen.—Any dentist hereafter appointed a Member of the State Board of Dental Examiners shall be of good moral character, have received the Degree of Doctor of Dental Surgery or Doctor of Dental Medicine, and in addition shall have completed the required course and received a degree other than a Dental Degree from a recognized College or University legally empowered to confer the same, and provided, further, that no member of said board shall be appointed or hold office for more than one term of four years in any six years.

Raises qualifications of State Board of Dental Examiners.

Section Eighteen.—It is hereby provided as an exception to the provisions of Section 3 of this act and as a provision of any dental aw or laws hereafter enacted, that, upon application to the Secretary of the State Board of Dental Examiners, a license shall by him be issued forthwith without examination to any person upon (1) paying a fee of twentyfive dollars; (2) showing that he is of good moral character; (3) is a graduate of a reputable dental college recognized by the National Board of Dental Faculties; (4) has been examined and licensed by a Board of Dental Examiners of any State of the United States; and (5) has practiced under the laws of any States of th United States for a period of five years next preceding the filing of his application in this State.

Prevents an examining board from discriminating against dentists of proved dental education, ability and practice, and favoring recent graduates with no practical experience.

Section Nineteen.—Any person shall be guilty of a misdemeanor and punishable as at present provided in Section 12 of this act, who shall in the practice of dentistry administer any anesthetic except in the presence af an adult third person.

Protects patient when under anaesthetic, requiring presence of any adult third party—brother, sister, mother, father, friend—not necessarily a nurse.

Section Twenty.—Nothing in this act or in any dental law or laws hereafter enacted shall be construed to mean that it is unprofessional to advertise, nor shall the charging of low fees for dental work be deemed unprofessional conduct.

Permits the very thing that brings about organization of specialists under one foor — better dentistry at lower prices.

Section Twenty-one.—All acts and parts of acts in conflict with this act are hereby repealed.

VOTE YES DENTISTRY Amendment 21

I HEARTILY subscribe to this statement, knowing from the successful experience and practice of dentistry over a period of twenty-five years that the true facts of the case are as here presented. PAINLESS PARKER.
